Not Dead but Living. EDITORS APPEAL.—The implacable plague, which has failen so beavily upon so large a portion of our beautiful south, afflicted us with lamentations, misery and death, and has torn from us some of the best and noblest of any race, sill finds its victims in town, city and country. But, as it was announced in your excellent paper of the first instant, that "Roy Davis, for several years porter at the Peahody house, died last Sunday, having been sick since the fifteenth of August," I respectfully ask leave to state the same as the notice seems to designate me as the person named—I am still, through Providence, spared with the living. A sufferer in the midst of a great pestilence, yet I hope to be at my lost again as porter of the Peasbody house—so long like tride of Memphis—and to be able to render such service as the point and affable proprietor, Colonel C. B. Galloway, may require of the then, as in the past, Hoping that this statement will suffice as a correction to the report gone abroad, I am yours in real EDITORS APPEAL-The implacable plague

tion to the report gone abroad, I am yours In real sympathy for our distressed people, RORAY DAVIS. The Late Hon. Lewis Bond. Nashville American, 2d: Among the deaths yesterday, at Brownsville, was that of Hon. Lewis Bond. In 1875 he was a member of the general assembly from Haywood county, and, although he had never before been a member of any legislative budy, he was chosen speaker of the house. Through a long and trying session he conducted himself with wenderful parilamentary tact and sagacity. At the time of his death he was a candidate for congress from his district, with favorable prospects for his nomination and election. He was a man of a wealthy family, commanding in his person and of large political influence in his district. He might have avoided the scourge, but he preferred to stay with his people, stand by and fall with them.

B. Kendall, of Memphis, who has been solourning for some weeks in our city with his interesting family, has proved himself a very energetic and useful volunteer aid to the executive relief committee in getting up, packing, and forwarding supplies to our stricken neighbors. Notwithstanding the sad news which he so often receives of his relatives and connections in his much loved city, his cheerful face is seen every morning at M'Cutchen's commissary depot, expressing a desire to do anything and everything which will forward the good work. We hope his modesty will not be shocked at this personal."

AFRAID OF THE SCOURGE. Tarrytown Mob Refuse to Allow the Casket Containing Dr. Lindley's Remains on Shore-Al-

most a Riot.

New York Herald, October 2d: Not a little ndignation is felt among the better class of citizens of Tarrytown at a scene which occurred there on Sunday night last in connection with the burial of the late hero, Dr. Newton A. Lindley, who died at quarantine on Saturday from yellow-fever contracted while nobly working in the scottrge-stricken south. On Sunday the body was placed in a hermetically sealed metalic casket and put on board a special tug for conveyance to Tarrytown for interment in the family lot in Sleepy Hollow cemetery. Dr. Vanderport, the healt officer, gave a certificate for the removal When the tug arrived at the Tarrytown dock-the time being seven o'clock in the evening—it was met by a mob of men who refused to allow the casket to be taken on shore. During the excitement the presi dent of the village, Mr. James Alexander, was appealed to, and he hurried to the scene, accompanied by Dr. Scribner. They endeavored to convince the ringleaders that there was not the slightest danger of conta-

gion, as the casket was hermetically sealed; but the crowd, which was constantly increasing, refused to be pacified. tion then took place between Mr. D. A. Lind-ley, the brother of the deceased, and Mr. Al-exander. Mr. Lindley in isted on his right to take the casket to the cemetery, and expressed his determination to take it there at all hazards, unless the authorities positively refused their permission. After consultation with some of his colleagues, Mr. Alexande finally announced that the casket could not be landed, as he feared a riot. The tug was then put back and landed near Irvington. from whence the remains were taken to the cemetery. Yesterday funeral services were held both at Mr. Lindley's house and at the grave, Rev. Dr. Sawyer, of Irvington, officiating at the former, and Rev. Dr. Tocker, of New York, at the latter. A *Herald* reporter called last night on Mr. Alexander, who said, in relation to the matter: "The crowd was

very much excited, and while Dr. Scribner and myself were perfectly satisfied that there was no danger, I was powerless in the premises. Our police force consists of only three men, and the crowd was two hundred strong. I therefore thought it more prudent to withhold my permission." The under-taker who had charge of the remains said: "The casket might have been kept in the house twenty years and there could no contagion.

A coording to the most intelligent medical opinfon yellow-fever is intensified malaria, and Dr.
William Alex. Green, of Georgia, member and exvice-president of Georgia Medical Association, member of State boarn of physicians, and chief surgeon
of artillers of A. P. Hill's corps, after great experience in malarial and yellow-fever, indorses and
recommends most highly in the Cincinnati Medical
News, the Bedrage (VA.) Springs ALOM AND IRON
MASS, as a previously and cure for both of these
dreadful diseases. He states that this mass should
be taken rapidly and in large doses—saturating the
blood with it and passing the system under its infupress at spaceffly as coesible; that it issuens be taken rapidly and in large doses—saturating the blood with it and pasting the system under its infipence as speedily as possible; that it lessens pairs in the head and limbs, and also the nauthat under its use the urine rapidly loses its that under its use the urine rapidly loses its the bloody character, becoming clear and limpid; the paroxyms are rendered milder, less frequent and of shorter chration; that it is also most beneficial from the very moment the soute stage subsides, and during convalencemes; that he places great reliance in this mass, using such other adjunct treatment as the course of the disease may suggest. The Cincinnati Medical News unges all to try this remedy, that its efficacy may be known and utilized.

This mass may be had of druggists, or ordered from the Betiford Alum and Iron Springs Company, Lynchburg, Virginia, and it can be sent by mall, post-paid, or express at fifty cents or one dollar a package, or two dollars and a half or five dollars for half dozen.

President of the Company.

This mass will be sent free to yellow-fever sufferers who are unable to pay for it, and trial sup-ply will be sent without charge to physicians desir-ing to test it in their practice. Five out of six of my nousehold, hear moscow, Tennessee, have lately had the yellow-fever, prevailing in that section. All of them have recovered, the attacks being mitigated and their recovery due, as I believe to the use of Bedford Alum and Iron Springs Mass, which was used in their cases, and before they were attacked. I make this statement for the benefit of others who may be afflicted with this dread disease, and to put in their reach the knowledge of this great remedy. S. M. DAVIS. September 21, 1878.

Dr. Jones in the New Orleans, Medical and Sura-Dr. Jones, in the New Orleans Medical and Surgueal Journal, recommends mineral tonics in yellow fever and in majarial hiematuria. The Bedford Alum and Iron Springs Mass contains ten parts of Iron in every hundred parts, and has no equal as a tonic. For sale by S. MANSFIELD & CO.
